ABOUT TOWN

Atwood W. Spaulding, one of the leading business men of Caribou, called on the writer one day last week, with his wife and some friends from Buckfield. They came to Norway to call on Fred S. Brown and wife, who lived for a period at Caribou. The father of Atwood W.—Wm. C. Spaulding—was born in Buckfield, but early established himself in business at Caribou, in Aroostook County, where he amassed a large fortune. He, in fact, was one of the builders of Aroostook.

He was greatly interested in the production of the Buckfield town history, which he was one of the promoters. The writer deeply regrets that he did not live to see its publication. The son, however, has had the same interest as his worthy sire, and it may be readily surmised with what high regards he is held by the writer. Certainly no finer specimen of manhood, and no sincerer or truer friend can be found in Maine or elsewhere.

And it may as well be said here that the coming back to live and do business among us, of Fred S. Brown, Norway, is of great satisfaction. We cannot have too many such clean, able and high minded young business men. They give a splendid tone to society, as well as to business.

And this is a good occasion, also, to pay a deserved tribute to another Norway boy—Henry B. Foster. The most of us have found our success away from the home place, and it is a good thing. Henry has attained his prominence and success where he has always lived. The writer has known him from a small school boy. He has always been a considerate of others, square and honorable in his business transactions, and animated with a purpose to rise and succeed by merit alone. The example of such a life is worth everything among the young in the community where he lives. Success such as his is worth striving for an all having, but that attained by unworthy means is really worthless.

There is another man, now verging on ninety—a hale and hearty for his age—who was born in a log house at the head of the "great pond" in Norway. As a young man he attended the district school—fortunately near at hand—and assisted in clearing up the lot and making a good farm. He thus knew what life was like in the early days, and he has since lived a life of industry and success. He has been a pioneer in his business transactions, and he has been a pioneer in his business transactions, and he has been a pioneer in his business transactions.

He has been a pioneer in his business transactions, and he has been a pioneer in his business transactions, and he has been a pioneer in his business transactions.

Get Rid of That Backache!

Norway People Point the Way
The constant aching of a bad back, The weariness, the tired feeling; Headaches, dizziness, nervousness, Distressing urinary disorders—Are often signs of failing kidneys And too serious to be neglected. Get rid of these troubles! Use Doan's Pills—a stimulant diuretic to the kidneys. Hosts of people recommend Doan's. This is a Norway case.

You can verify it. Philip Everett, 55 Water St., says, "My back was lame and stiff mornings when I first got up. There was a dull pain through my back that kept up steadily. Occasionally sharp pains shot across my kidneys. My kidneys were weak and the secretions burned in passage. I had to get up at night to pass the secretions. Several boxes of Doan's Pills from Stone's Drug Store rid me of the trouble."

Now is the time to See

Hollywood-by-the-Sea has proved its claim of being Florida's All-year Resort City. Knowing that it is but necessary to visit its clean cool beach, we brought hundreds, that in time ran into thousands, down to Hollywood and demonstrated it. These half-skeptical visitors from the northland found first of all, a modern city, made and in-the-making, built up by its founder, Joseph W. Young, from virgin land and timberland, right in the choicest section of Florida's brilliant Southeast Coast. Few of them were prepared to find such a community as Hollywood; a community that conventional ideas had taught them to believe was given over in summer to tropical heat.

They found beautiful, brilliantly lighted coral streets, parks and parkways, bright business structures, schools and public buildings. They found a livable city with all the amusements, pleasures, and comforts of a seaside resort.
